

## The Fluid Artworks of Jennifer Turpin & Michaelie Crawford

FREE – 5.30pm – 7.30pm Wednesday 17 March 2010  
The Edge Auditorium, State Library of Queensland

waterbydesign

Described as poetic, mesmerising, playful and intriguing, the artworks of Jennifer Turpin and Michaelie Crawford highlight the elemental forces of nature and communicate an understanding of the natural environment. You're invited to an evening with Jennifer Turpin as she discusses her kinetic public art sculptures and large scale environmental installations.

### ABOUT THE ARTIST

Jennifer Turpin is a public artist with 15 years experience creating kinetic installations engaging water, wind and light as sculptural media. The artworks are a dynamic response to the specificity of the sites they inhabit. Working with nature's elemental energies, the artworks are rhythmic, responsive and transformative 'performances' in the everyday life of the city. Together with artist colleague Michaelie Crawford, Jennifer has worked collaboratively on projects in Sydney, Melbourne, Brisbane, Singapore and regional NSW.
